

KIYAN JOHARI

MOBILE SOFTWARE ENGINEER

Tehran,Iran | github.com/Kiyanjr | +989014037210 | kiyanjohari81@gmail.com | LinkedIn : [Kiyan Johari](#)

PROFILE SUMMARY

Flutter Developer with 1+ years of hands-on experience designing and shipping cross-platform mobile applications for Android and iOS using Flutter and Dart. Skilled in MVVM and Clean Architecture patterns with proven implementation of state management solutions including Provider and Riverpod. Experienced integrating RESTful APIs and Firebase services (Authentication, Firestore, Cloud Messaging) to build real-time, data-driven applications. Proficient with Git-based version control workflows in collaborative environments.

PROJECTS

Flutter

- **Fintak:** Built an end-to-end personal finance tracker in Flutter with MVVM architecture and Riverpod state management, featuring transaction CRUD, budgeting, and fl_chart-powered statistics. Designed a local-first data layer with SharedPreferences, using Firebase solely for authentication. having dark and light theme.
- **ChatApp (Real-Time Chat):** Developed a real-time messaging application requiring user registration and login, connected to Firebase Firestore to persist and sync messages across devices. — Flutter, Firebase Auth, Firestore
- **Habit Tracker:** Allows users to manage and track daily habits with progress details and consistency streaks. Implements local data management and structured Provider state management. — Flutter, Provider.
- **StormEye (Weather App):** Weather application with minimal, smooth UI delivering cityspecific weather data including wind conditions and multi-day forecasts via REST API integration. — Flutter, REST API, Dart async/await
- **E-Shop (E-Commerce App):** Built a scalable e-commerce mobile application with Flutter implementing product catalog browsing, cart functionality, user authentication flows, responsive UI, and clean architecture patterns. — Flutter, Dart, Provider, REST API

EDUCATION

BACHELOR OF COMPUTER ENGINEERING

Azad University, 2022-2026

SKILLS

Languages: Dart (primary), Java

DeveloperTools: Git, GitHub, VS Code, Android Studio

State Management: Provider, Riverpod

Architecture: MVVM, Clean Architecture, OOP

Frameworks & Tools: Flutter, Firebase (Auth,Firestore, FCM), REST API / Dio

Soft Skills: Fluent English (Reading,Writing,Speaking) | Teamwork | Problem-Solving & Debugging

ACHIEVEMENTS

- Gold,Silver medals in Taekwondo competition.
- 3 times Championship in music awards competition.
